GREEN LIGHT CITY
tech meets green

DESIGN PHILOSOPHY

The focus of the Solar System design process is to give you value for money – whether your budget is big or small. Our goal is to design a complete system that integrates harmoniously within your home so that you enjoy the full benefits of solar energy. Green Light City has the design and engineering expertise to make that happen for you. That's how we deliver real value for our clients.

YOUR HOME & BUSINESS POWER REQUIREMENTS ARE UNIQUE

Because we understand the unique nature of power for home and business users, our solar and power backup solutions are tailor-made to our customer's specific needs, aimed at maximising returns by enabling savings on electrical bills.

Real estate agency polls have shown that 54% of people in South Africa would rather buy a newly renovated house that also had solar power installed or at least backup power. Load Shedding is a heartbreaking reality, but as home and business owners, the decision needs to be made to rise above the electrical shortage situation and at the same time make a positive impact through renewable energy sources, such as solar energy, to our beautiful planet. By taking these steps to a more sustainable power solution, you ensure you're protected from electrical shortages and you're adding value to your property to maximise your sales price when the time comes to sell.

ABOUT US

Our promise to you is that all your solar, home automation, electrical and property renovation requirements, will never need another service provider besides Green Light City.

We strive to do a job you're happy with every time, but sometimes, things don't go as planned but, with our workmanship and product guarantees and warranties you can rest at ease knowing you're getting a great product and a great service. Our guarantees cover the replacement of any faults and the fixing of any issues FREE OF CHARGE! Not happy with the quality of the job, we'll fix it, free!

Our team of specialists are experts in their field and have a combined experience of 70 years in the property industry. The members of our team have been trusted by top clients for decades and strive for excellence and rock-solid service.

As an organisation, we are PV Greencard Accredited Installers and our electricians are registered with the Electrical Control Board and Department of Labour of South Africa.

THE PROCESS

2. SOFTWARE DESIGN

We follow up the site inspection and consultation with electrical software designs where final changes are made to initial plans to ensure that you're happy with our final proposal.

4. INSTALLATION

You become energy independent and start saving on electrical bills from day one! We arrange a date with you to start with the installation and you just need to let us in.

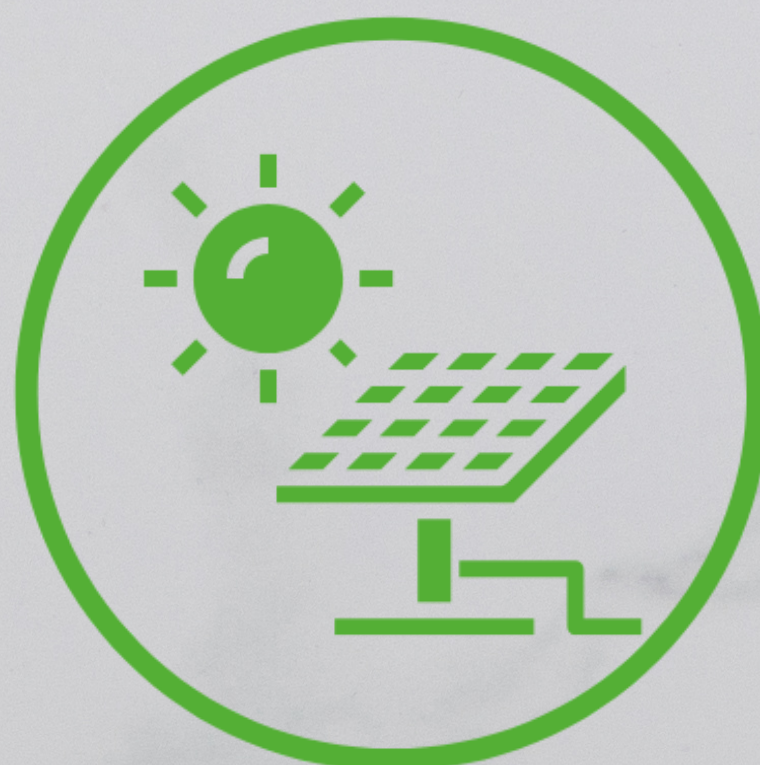

1. SITE INSPECTION

An expert Green Light City solar technician will visit your site to inspect your distribution board, review your existing electrical layout, carry out electrical measurements and test, measure your roof and angles for solar panels and finalize the plans that were discussed over a free consultation call.

3. DESIGN PACKAGE

The Green Light City design package will include electrical drawings, panel angles & placement, full solar system specifications and equipment details, solar & electrical equipment costings including installation fees, projected system performance details, return of investment calculations and cash payback-period analysis.

LOADSHEDDING PACKAGE

Product Details

PLUG-N-PLAY

Product Description :

1 x REV OV CUBE comes as a 5kWh battery, a pre-cabled BMS, and a 5Kw inverter with 80A MPPT.

System

Specifications :

Provides Back-Up for a minimum of 3 hours of power depending on load profile for a standard 3 bedroom house.

Package Price from:

R 52 199.00 ex vat

GREEN LITE PACKAGE

Product Details

BACK UP SYSTEM

Inverter :

*1 x Sunsynk 5kW Hybrid Inverter
(5 Year warranty)*

Battery :

*1 x Revov 5.1kWh Lithium-Ion
Battery (10 year warranty)*

System Specifications :

*Provides Back-Up for a minimum
of 3 hours of power depending
on load profile for a standard 3
bedroom house.*

Package Price from:

R 60 239.00 ex vat

HELIOS LITE PACKAGE

Product Details

HYBRID SYSTEM

Inverter :

*1 x Sunsynk 5kW Hybrid Inverter
(5 Year warranty)*

Battery :

*1 x Revov 5.1kWh Lithium-Ion
Battery (10 year warranty)*

Panels:

8 x JA Solar 460W

System Specifications :

*Back-Up for a standard 3 bedroom
house with an average of 20kwh
per day.*

Package Price from:

R 106 119.00 ex vat

MR. GREEN PACKAGE

Product Details

HYBRID SYSTEM

Inverter :

1 x *Sunsynk 8kW Hybrid Inverter*
(5 Year warranty)

Battery :

2 x *Revov 5.1kWh Lithium-Ion*
Battery (10 year warranty)

Panels:

16 x *JA Solar 460W*

System Specifications :

Back-Up for a standard 4 bedroom house with an average of 29kwh per day.

Package Price from:

R 189 484.00 ex vat

HELIOS 2.0 PACKAGE

Product Details

THE ULTIMATE HYBRID SYSTEM

Inverter :

*2 x Sunsynk 5kW Hybrid Inverter (5
Year warranty)*

Battery :

*3 x Revov 5.1kWh Lithium-Ion Battery
(10 year warranty)*

Solar Panels :

22 x JA Solar 460W

System Specifications :

*Back-Up for a standard 4 bedroom
house with an average of 40kwh per
day.*

Package Price from:

R 266 067.00 ex vat

DOCTOR GREEN PACKAGE

Product Details

3-PHASE HYBRID SYSTEM

Inverter :

1 x Sunsynk 12kW 3 Phase Hybrid Inverter (5 Year warranty)

Panels:

34 x JA Solar 460W

Batteries :

3 x 5,1KWH Lithium-Ion Premium Revov hybrid batteries with built-in BMS and Canbus (10-year warranty)

System Specifications :

Back-Up for a 3-Phase 4 bedroom house with an average of 60kwh per day.

Package Price from:

R 345 963.00 ex vat

ALL-IN-ONE PACKAGE

Product Details

FOXESS BACK UP

Inverter :

1 x FoxESS 6kW AIO Hybrid Inverter (5 Year Warranty) with 10kWh Battery Storage Capacity (10-year warranty)

System

Specifications:

Provides Back-Up for a minimum of 3 hours of power depending on load profile for a standard 3 bedroom house.

Package Price from:

R 69 980.00 ex vat

Each system includes standard:

- Fuses & Enclosures
- AC & DC Cables
- PV Cables (where required)
- Combiners
- Installations, Certification & Delivery

TERMS & CONDITIONS

The product packages is an estimate only. The final price will be determined after a site inspection has been conducted by one of our solar experts. Product warranties are provided by the suppliers and not by Green Light City. Green Light City provides a 1-year workmanship guarantee.
